

Physical Properties of Matter

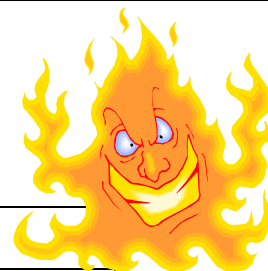

Textbook Reference pages 16-18, 547

Property	Definition	Example(s)	Qualitative or Quantitative Observation
Hardness			
State			
Malleability			
Ductility			
Melting Point & Boiling Point	M.P. - B.P. -		
Crystal Form	<hr/> <p>Other forms of solids can be;</p> <ul style="list-style-type: none">▪▪▪		
Solubility			

Viscosity			
Clarity	Transparent		
	Translucent		
	Opaque		
Luster			
Density			

Chemical Properties of Matter

Textbook Reference page 18 -19

Property	Definition	Example
Combustibility		
Corrosion
