

Variation and Adaptation

Variability: _____

Adaptations: _____

Types of Adaptations

1. Structural: -

-

-

2. Behavioural -

-

-

-

At-Risk Species

- There are different ways to classify the severity at which a species is "at risk".
- A five-level classification system is commonly used.

<i>Classification</i>	<i>Definition</i>	<i>Examples</i>
<i>Extinct</i>		
Endangered		
Extirpated		
Threatened		
Vulnerable
